International Supply Chain Solution

# North American Intelligent Warehouse Service

## Cross-border Supply Chain Solutions

Upgrading & empowering manufacturing through technology

Payoneer® 官方合作

# IDS North America Warehouse Solution    Support US DDP/ Drop Shipping

**One** Logistics platform  
allows for ease of managing

**48** States serviced  
by multiple warehouses

**Highly flexible**  
fulfillment possibilities

End-to-end service uniquely  
available from IDS

By integrating manufacturing business requirements and North American e-commerce expertise, IDS offers a comprehensive supply chain management platform for Asian enterprises. Our platform connects multi-warehouse intermodal transportation across 48 states in the US, enabling real-time inventory management and rapid response to the needs of traditional B2B supermarkets and chain stores, Amazon FBA replenishment, and retail or self-owned online shop delivery.

Strategic Investor & Partner

- Manufacturing Logistics Expert: Jusda Group (Foxconn Technology Group)
- Fintech Partner: Payoneer

# 1-Stop Supply Chain Management Platform

E-commerce platform  
API binding/smart shipping

- ✓ Support enterprise multi-brand management
- ✓ Spot procurement by counterparty

Friendly system  
Instant inventory update

- ✓ Lower cross-dept. operation cost
- ✓ Entrust 1 stop cross-border logistic service. Reverse with flexible commission
- ✓ Fast Response to buyer demands
- ✓ Support out of stock alert

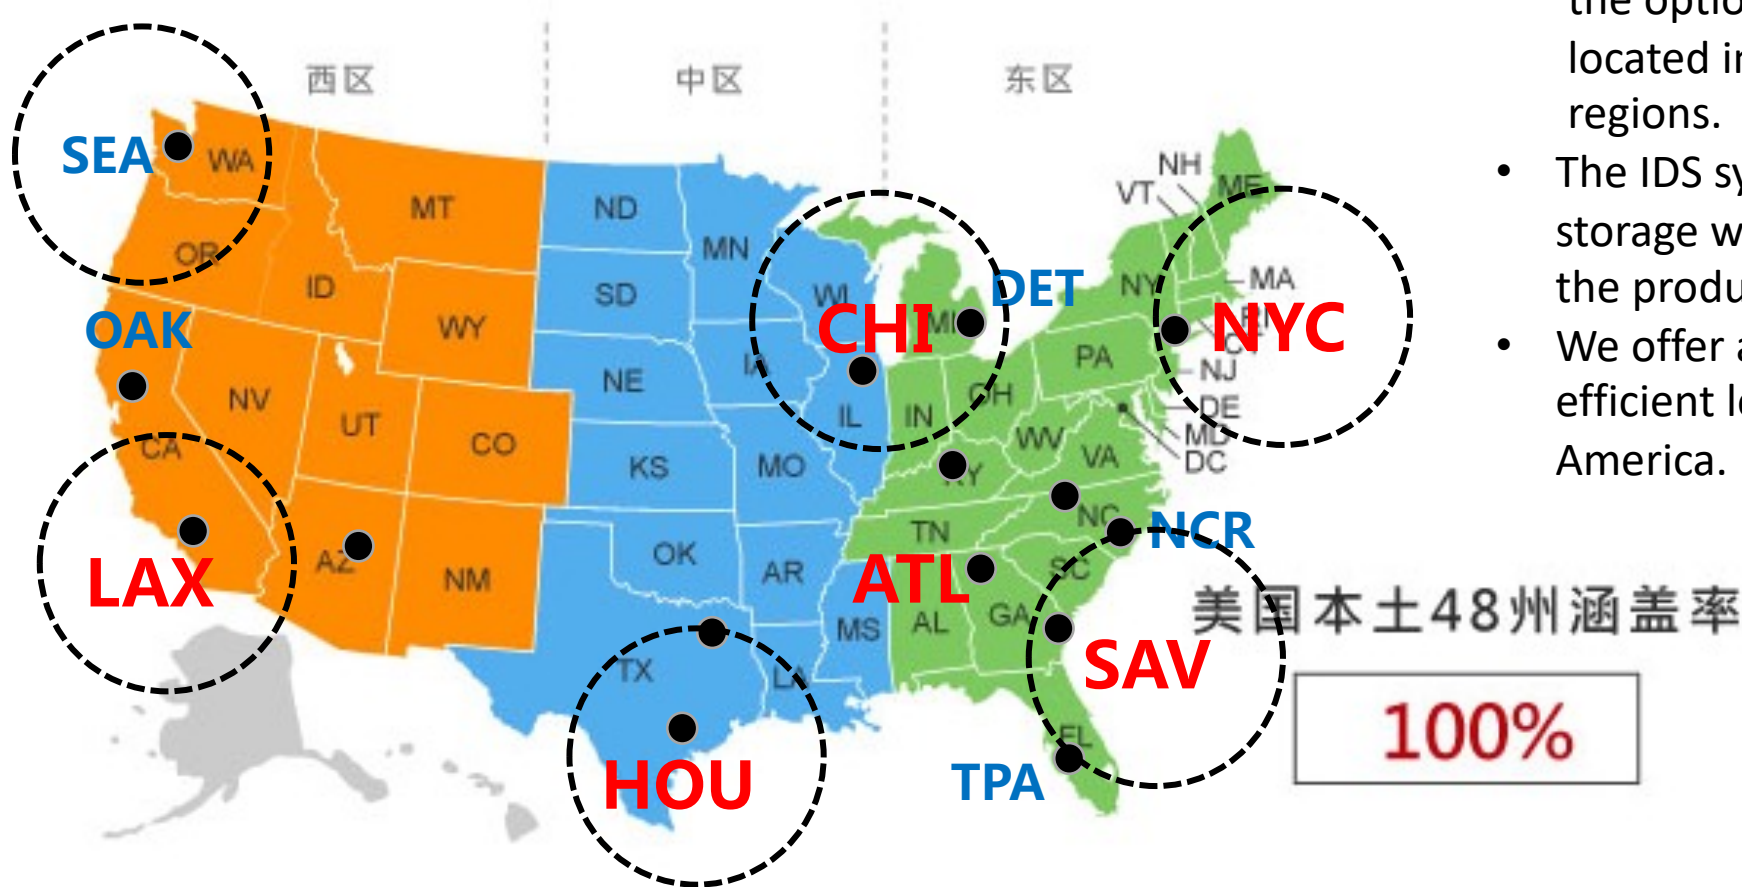

Cross-border management  
intelligent billing solutions

- ✓ Cost Forecast before shipment
- ✓ Clear Invoice for finance mapping
- ✓ Support Profit back to Asia
- ✓ Support Payoneer PWP service

## 48 States Serviced through Multiple Warehouses

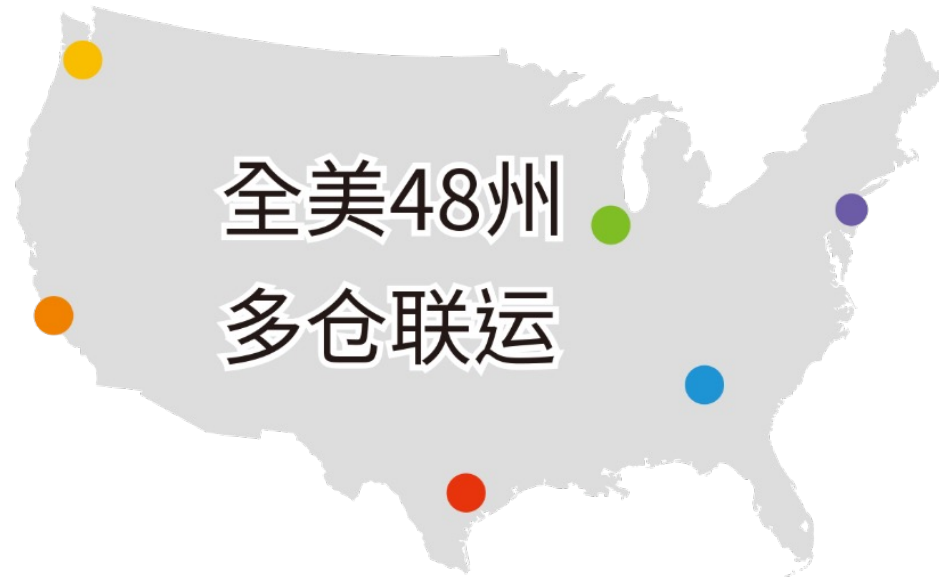

- ensuring 100% Coverage

- The multi-warehouse storage system has fulfilled its performance commitments for all three zones throughout the United States. When making a storage booking, you have the option to select from warehouses located in the western, central, and eastern regions.
- The IDS system will intelligently configure the storage warehouse based on the attributes of the product.
- We offer an instant update interface and efficient local warehousing services in North America.

# Multiple Delivery Package To Meet B2B & B2C Customer Demands

- ✓ Seattle, WA
- ✓ San Pedro, CA
- ✓ Houston, TX
- ✓ Chicago, IL
- ✓ Savannah, GA
- ✓ New York, NY

## B2B traditional chain store /retail delivery/distribution center to the end destination

- Dock Pick-up/Container Quick Removal/53 ft Truck Loading
- Operations can be performed according to the SOP standards of each system of North American chain retailers (e.g. Costco/Walmart/Target, etc.).

## B2C Medium to Large Shipments (Heavy/Oversized)

- Single piece 30-150lbs: Enjoy the avg. price delivery within the UPS/FedEx area
- Single piece 150lbs or more: LTL card delivery/home installation
- Support warehouse pick-up and platform dispatch and pickup

## B2C SMB delicate products

- Satellite transit warehouse: Support enterprises to store in batches, and transfer to Amazon FBA warehouse or buyer address as needed

# 1<sup>st</sup>-Mile Delivery - IDS Unique Benefits

1 <sup>st</sup> mile Service	IDS US service	Others
Self-own Fleet in entry port	<p>Western US: : The pier makes an appointment to dispatch a car to help manufacturers reduce the cost of Demurrage/Detention and other costs</p> <p>Eastern US : In the event of a New York/Savannah port congestion, you can cooperate with the manufacturer to dispatch Charleston/Norfolk import port dykes/dismantling/truck delivery</p>	<ul style="list-style-type: none"> <li>- Assisted by freight forwarders, the dilemma of trucks not accepting new commissions is common</li> <li>- Trucks are reluctant to run inland delivery points, unable to hire or cause sharp increases in the cost of returning the cabinet</li> <li>- The port has been congested for a long time, with an average of US\$200-300/day, and the cost of cargo owners has increased significantly</li> </ul>
Visualized System support	The whole process of the system is forecasted/updated, and the progress is tracked in real time	There is no system support, you need to actively ask the progress of the industry
Intel 'shipping option	In response to the expected strike by the US West LA/LB, the port of New York/Norfolk/Charleston/Savannah on the US Eastern Line was provided with stable shipping space	With a focus on New York and Savannah ports, the port of Sai is not easy to dispatch
Sensitive Goods containers pick-up	Battery-type sensitive goods container service can be provided	Limited to the fact that the fleet must have a license and the amount of dispatch is small, it is generally up to customers to take care of themselves

# Warehouse Management Platform - IDS Unique Benefits

Cloud warehouse service project	IDS US Service	Others
Massive warehouse capacity	The six main warehouses in the US support B2B Transload and FBA transfer, more than 40 auxiliary warehouses support FBM direct delivery services, and IDS configures the most suitable warehouse point according to product characteristics and service requirements	Single warehouse service is the mainstay, and the storage capacity is limited
Associate Warehouse across West, mid and east part of US	Automatically match the nearest point of delivery	Rely on manual judgment to summarize orders based on expected inventory and possible points of shipment
Support bulk tally	Suitable for wholesale transshipment/FBA transshipment/combination of goods	B2B and B2C warehouses have clear barriers to work and specialize in a single project
Flexible unloading and loading	The library is equipped with fixture machinery to support special pallets	General forklifts, container loading rate is limited
Damage and Loss Guarantee	Provide a worry-free guarantee for loss/damage to the operation in the library	There is no compensation standard and many disputes
Support accounting audits	Twice a year, the accountant enters the position and counts	Audits are not supported

# Last Mile – IDS Unique Benefits

Last Mile Service	IDS US Service	Others
Dedicate Amazon Transfer Vehicle	Green channel car reservation, effectively reduce FBA rescheduling/refusal	Depending on the results of FBA appointments, there are often delays, rescheduling or cancellations
The main camp is 30-150 pounds	Medium and large/extra large shipments are one-click forwarding, combined wholesale	Multi-franchise standard parts (<30lbs) delivery
Supports multi-class push orders	Provide store API settings/ platform excel/ manual orders and other types of push orders	Batch push orders according to warehouse excel
Online real-time quotes	The system automatically quotes and settles before placing an order	Excel quote estimates, pre-dependent bill deductions
UPS/FEDEX Partner	Support the mainstream platform distribution specifications, the main warehouse point is always available GROUND truck 3 cars / day	There is a shortage of standing cars and it relies on UPS/FedEx touring capacity to pick up goods
48/H High capacity appointments	Special Events/Bulk Pre-Orders/Temporary Capacity Expansions	N/A
Extra large truck service	Products over 150 pounds, the average price in the United States is distributed by card	No quote or quoted by distance, costly

# 16 Large Distribution Centers

## Offering Increased Flexibility In Fulfillment Schedules

Our warehouses are fully integrated with the main North American distribution networks

1. strategically located around 16 key US cities near main rail and road hubs.
2. We have our own fleet of trucks to service inter-warehouse shipping and allow for self-pickup from our warehouses.
3. Our distribution services cater to key retail store networks, warehouses, and hubs. Additionally,
4. we offer API integration to connect platform orders, residential delivery, and home installation in key cities.

# IDS North American Warehouse Distribution System - Drop Shipping

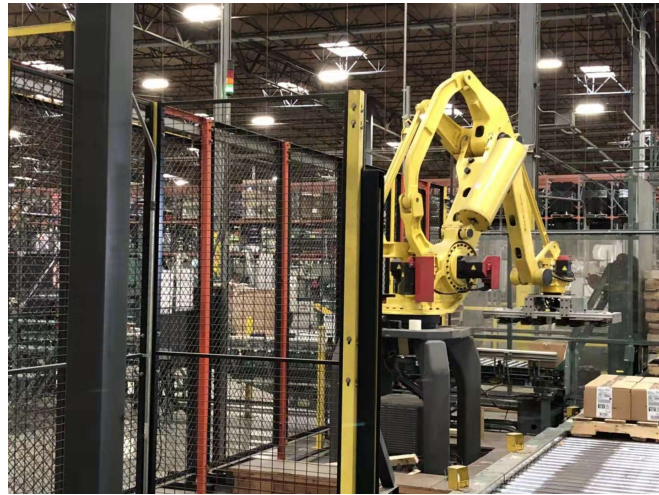

To meet the growing demand for cross-border e-commerce, we offer a comprehensive service experience for medium and large shipments, as well as online customers.

Our services include first-mile shipment, unloading and warehousing, sorting and storage, warehouse picking, local distribution, and other related services. We also offer a one-click solution for single pieces of products weighing up to 500 lbs. In addition, our IDS support warehouse pick-up services cater to the multi-channel sales requirements of sellers in North America.

# IDS North America Warehouse Allocation Project – In-House Operation

Our warehousing assembly line operates in a standardized manner, with billing and cost calculations performed through our system. Our services include unloading, sorting, labeling, and shipping out of the warehouse, with simplified pricing and cost control for daily operations.

In addition to our standard services, we also offer project-based customized services tailored to meet the specific needs of our customers in terms of batch requirements.

# IDS North America Warehousing Program – Local Distribution Service

**6 PLT**

**9 PLT**

**11 PLT**

We provide a variety of delivery models within each warehouse coverage area, coupled with high-quality UPS/FedEx Ground services to achieve optimal delivery costs. We also offer home installation services if needed.

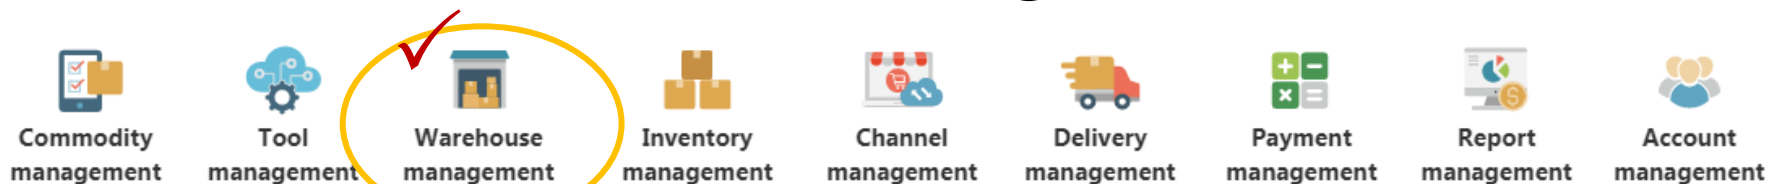

## IDS Services Overview

Common DDP Services Requested	Respective Counterparts	Thiscs Platform
Customs application/clearance assistance, tariff ID verification	Customs broker	Affiliate Customs Broker
Shipping from port to country of destination/ designated warehouse	Freight Forwarder	Inclusive in IDS
Devanning, racking, storage, pick & pack and trucking arrangement	Warehouses	Auto smart allocation & inventory mngmt
Within 48 US states, warehouse pick-up & designated drop off	Delivery companies	Software managed, auto create tracking ID
Multi-warehouse option, allow for shortest distance to destination.	Personnel allocation	AI allocation
Supports key ecommerce sites such as Amazon (API connected), labeling, invoicing, etc	Personnel arrangement	IDS standard procedure

# Fulfillment Management

we offer two fulfillment services to support you in meeting with the delivery specification of main online channels.

## One-click generation

IDS North America Cloud Warehouse specifies the delivery company within the United States. We will intelligently match the most suitable storage area outbound assignment according to your delivery instructions, and use the Ground delivery service to help you complete the delivery of the goods. If your goods exceed the scope of Ground transportation, we will use pallet shipping to execute your shipping instructions. If your product size exceeds the standard pallet or weighs more than 300 pounds, please contact the special person, we will discuss with you

or

## Self-delivery

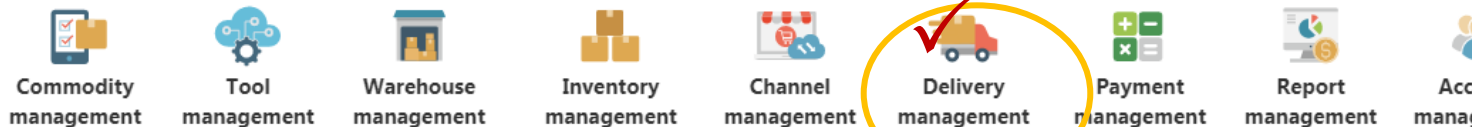

The channel / platform provider or your buyer designates the delivery company in the United States. IDS North America Cloud Warehouse performs the goods picking and outbound tally operations in accordance with your delivery instructions, and contacts your designated delivery company to pick up the product. In addition to providing basic pick-up services in online sales channels (such as wayfair), we can also provide bulk out-of-stock or on-demand shopping services according to your business needs.

P19

# Self-Delivery (help the seller to comply with the delivery regulation of Channel, ex. B2B / Wayfair)

Two steps: 1. Select the sku & Q'ty 2. upload the BOL or shipping label

## Apply for delivery

You are welcome to use the self-delivery function to apply for delivery. Please select the product and fill in the delivery information. We will arrange delivery for
